Work Experience

2019 – Present

Deloitte

Senior Cyber Security Consultant

Giannis has contributed to the identity and access management programs of well-established organisations in Europe and the Middle East. He has been involved in assessing existing processes, defining future states, and developing strategies and roadmaps.

Giannis has also assisted organizations with their efforts in privacy and data protection. In particular, he has provided consultation on maintaining records of processing activities and performing data protection impact assessments according to the General Data Protection Regulation (GDPR).
